

DRIVE TIME

Welcome, from The Chauffeur Group.

When it comes to a business car service we're all about getting you or your people from A to wherever you need to B... with the minimum fuss, the best service and at a fair price. 'Drive Time' is our brief news and views that will tell you about services, offers and opportunities that can benefit or help you.

Don't miss the bus, well coach actually!

All part of a service that goes further than you'd expect.

Following the article in last months edition of our Drive Time newsletter, we were pleasantly surprised by the number of enquiries we received for coach bookings. We realised there was a significant demand so we have devoted this months Drive Time entirely to this subject.

You can rest assured that whatever type of vehicle you require we will bring the same commitment, dependability and first class service that you have come to expect from The Chauffeur Group. So if you have a large group of people to move whether it's for a product launch, a conference, a nationwide roadshow, maybe a corporate golf day or your staff Christmas party, we can organise it for you.

Our coaches offer the latest and best in luxury travel whilst our minibuses provide great value for money for smaller groups of travellers.

We even provide a special service that's got your name all over it!...

If you want to further impress for a special project or event, The Chauffeur Group can even arrange to have a coach personalised with your Company logo and graphics. It takes a little extra time to organise but can provide a real "Wow" factor.

The "My Bus" graphics on the coach pictured below were arranged for My Bus who are part of the JTB group (Japanese Travel Bureau), a leading travel company in Japan. They are also one of the authorised agents of the Japan National Tourist Organisation.
